Subject: Fwd: Gym Equipment

Hello,

We are contacting you again in regards to our email sent 13th May, as we are yet to receive an acknowledgment nearly 7 days later.

The issue we raised is still ongoing and we would like to speak with someone from the council in relation to this.

We have a young daughter and are expecting a baby imminently and feel our privacy is being invaded on a daily basis and has resulted in us feeling exposed and vulnerable beyond our control. We hope you take this situation as seriously as we are and we anticipate your prompt response to discuss the above.

Kind Regards

Subject: **Gym Equipment**

Hello,

We hope you are well.

We are residents of St Michaels Close and we are contacting you in regards to the new gym equipment that has been fitted on Hall Lane playing field. Whilst we think this is a great addition to the village we do have some personal concerns on how it is suddenly impacting our privacy.

We have attached a number of photos taken from our kitchen/dining room and garden, and as you can see anyone using the equipment can see directly into our property.

We would appreciate if we would be able to discuss this with someone in person.

Look forward to hearing back from you shortly.

Kind Regards
